CLIMAGUARD TOP WITH DUAL GUTTERS

This top comes with a 360 double rain channel, clogproof downspouts, and a wider, longer coverage area. You will stay dry. Keeping your ball dry is still up to you.

AUTOMOTIVE STYLE DASH

With four cup holders: a center storage are for wallets, cell phones, and personal items: six ball holders: six tee holders: and big, easy-to-clean storage compartments on each side, you may accidentally drive it home.

BEST FRONT & REAR BUMPERS IN THE INDUSTRY

You know and we know: things happen out there. So we made our bumpers with thicker walls and textured surface to withstand mishaps. They're the same height front and rear to minimize damage. They release air on impact: in fact, they're 5 mph rated. and if worse comes to worst you can replace them by removing only two bolts.

FOLD DOWN CLEARWINDSHIELD

With a conturated bottom designed to hug the front of the vechile and seal out the elements, these high impact clearand tinted windshields have a flexible rubber hinge that allows the windshield to smoothly fold and lock in piace.

LARGE COMFORTABLE ARMREST

Exactly how important is an armrest? Depends on whether it's done right. Ours is strong, made of steel-reinforced, glass filled polypropylene. It's larger and wider than previous models, but its doesn't inrefere with entery or exit. It;s substantial enough to provide comfort and security fot the occupants-and if that's not important, what is?

LARGEST, MOST COMFORTABLE SEAT IN THE INDUSTRY

Deep, supportive contours provide unmatched comfort. The widest seat in the industry is designed to accommodate accupants of different, heights, and sizes. It's made of pure, supple foam bonvved to seamless durable vinly backed cover and its polyproplene seat base won't sag, rot or warp despite daily abuse and repeated washings.
